**AHSANULLAH UNIVERSITY OF SCIENCE AND TECHNOLOGY**
Department of Computer Science and Engineering
Program: Bachelor of Science in Computer Science and Engineering
Spring 2019   Year: 2$^{nd}$ Semester: 2$^{nd}$
Course No: CSE 2200                     Course Title: Software Development III
Time: 30 Minutes                                                    Marks: 05

Question: Open a file in Android Studio and name it as Online_*StudentID* (For example, Online_140204104). Create a counting app. There should be at least two Buttons in the application along with necessary number of TextViews. If the user presses INCREMENT button, count increases by one and if CLEAR button is pressed, count resets to 0. For, android:layout_width and android:layout_height, only "match_parent" or "wrap_content" can be used.
